

Mobile EV Charging Membership Plans EV Charging That Comes to You

GetEVCharge provides convenient **mobile EV charging services** for electric vehicle owners, businesses, commercial fleets, apartments, hotels, workplaces, and other organizations. Instead of searching for an available public charging station, GetEVCharge brings EV charging services directly to eligible locations.

Whether you need routine charging support, emergency roadside EV charging, priority service, or a customized commercial fleet solution, GetEVCharge membership provides an easier way to stay charged and keep moving.

Limited-Time Offer: Save 20% on GetEVCharge membership plans through October 31, 2026.

Why Become a GetEVCharge Member?

EV ownership should be convenient. A GetEVCharge membership provides access to mobile charging services along with valuable benefits that can help members save time and reduce charging costs.

Membership benefits vary by plan and may include:

- Mobile EV charging brought to you
- Reduced member charging rates
- Priority scheduling
- Emergency roadside EV charging
- Eligible dispatch-fee savings
- Preferred after-hours service
- Priority response
- Annual battery performance evaluations
- Charging-system inspections
- Dedicated member support
- Exclusive member offers
- Commercial and fleet pricing eligibility

GetEVCharge membership is designed for EV drivers who want the convenience of having a **mobile EV charging service available when and where they need it.**

Essential Membership

The **Essential Membership** is designed for EV owners who want convenient access to mobile charging and everyday member savings.

Benefits include preferred scheduling, reduced charging rates, member-only after-hours pricing, and eligible dispatch-fee benefits.

Essential is a practical choice for drivers who want an affordable **EV charging membership** without paying for benefits they may not need.

Premium Membership

The **Premium Membership** provides additional benefits for drivers who want greater savings, emergency charging support, and priority service.

Premium benefits include eligible emergency dispatches, discounted charging, priority response, reduced after-hours fees, and an annual battery health review and inspection.

It is designed for EV owners who want more protection against unexpected charging situations while receiving additional membership savings.

Elite Membership

The **Elite Membership** provides GetEVCharge's highest level of individual membership benefits.

Elite members receive enhanced scheduling priority, priority emergency roadside charging, preferred after-hours and holiday scheduling, annual charging-system inspection, annual battery performance evaluation, dedicated Elite support, and access to exclusive offers and early service opportunities.

Elite membership is designed for EV owners who place a premium on **priority mobile EV charging and enhanced service availability.**

Commercial Fleet EV Charging

Businesses need charging solutions that work around their operations—not the other way around.

GetEVCharge provides **commercial mobile EV charging services** for companies and organizations operating electric vehicles. Our Commercial Fleet program can support

businesses that need scheduled charging, emergency charging, multiple-vehicle service, consolidated billing, or a customized charging program.

Commercial services may be appropriate for:

- Corporate EV fleets
- Service and delivery vehicles
- Apartment communities
- Property management companies
- Hotels and hospitality businesses
- Auto dealerships
- Workplace EV programs
- Municipal and government fleets
- Transportation providers
- Small-business EV fleets

Custom EV Fleet Charging Contracts

GetEVCharge offers **custom EV charging contracts** for businesses with requirements that extend beyond a standard membership plan.

Rather than forcing every commercial customer into the same package, GetEVCharge can develop a service agreement based on your organization's specific fleet and operating requirements.

Custom contracts can address:

- Number and type of electric vehicles
- Expected charging frequency
- Service locations
- Scheduled on-site charging
- Emergency charging requirements
- Priority response requirements
- Multiple vehicles and locations

- Volume-based pricing
- Employee EV charging programs
- After-hours service
- Dedicated account management
- Consolidated invoicing
- Monthly usage and service reporting
- Customized service-level requirements

This flexibility allows GetEVCharge to support organizations ranging from a small company adding its first electric vehicles to businesses managing larger EV fleets.

Mobile EV Charging for Apartments, Hotels and Commercial Properties

GetEVCharge can also provide mobile charging solutions for **apartments, hotels, workplaces, shopping locations, commercial properties, and property managers** seeking additional EV charging options for residents, guests, employees, or customers.

Mobile charging can supplement existing charging infrastructure or provide an alternative solution when installing additional permanent charging equipment is not immediately practical.

Emergency Roadside EV Charging

Running low on battery power can interrupt a trip, business schedule, or fleet operation.

GetEVCharge provides **mobile roadside EV charging services** designed to bring charging assistance to eligible vehicles and service locations.

Members may receive priority response, dispatch-fee benefits, reduced charging rates, or other roadside charging benefits depending on their membership level.

Save 20% Through October 31, 2026

For a limited time, new customers can **save 20% on eligible GetEVCharge membership plans through October 31, 2026.**

Choose the membership plan that matches your driving needs, or contact GetEVCharge to discuss a customized commercial fleet charging agreement.
